self-hostedsolution

your take control solution

Custom A Design specializes in tackling complex web development and marketing tasks that other firms simply cannot accomplish.

We are a one stop shop for quality business branding, excellent customer support and a streamline marketing process. We provide high-end custom web solutions for established companies and experienced entrepreneurs who rely on a powerful and engaging online image in launching their business to the next level. Moreover, even small to mid-sized companies find our solutions affordable and effective in creating a long lasting first impression.

Our self-hosted solutions are for companies that have dedicated IT personnel and feel comfortable in managing their own website platform. Through self-hosted solutions, we envision, design, develop and set up an initial website for your company that can be hosted anywhere and maintained by anyone. These allow business owners to reduce their maintenance costs and provide end-user flexibility. All website files are guaranteed to be accessible and manageable to the company.

Our Development Process

Our designs are handcrafted to perfection!

Do you want an easy-to-manage web design that will adapt to the future growth of your business or organization? At Custom A Design, you get the same top tier website development services normally reserved for big-name companies, but only at a fraction of the cost. We believe that every business has a potential success in today's market and understanding where you can thrive is important to us.

Discovery

We listen, ask questions, and research about you, your competition and your target market

Strategy

We organize every page of your website including its functionality, content and vision

Execution

We design and develop every page of your website for a quality user experience

Q&A

We will never launch a website without testing it thoroughly for errors or bugs

Evolve at your own pace

We understand that a lot of companies prefer to evolve at their own pace. Fortunately, at Custom A Design, you can advance towards your goal step by step and at a cost that is affordable no matter what size adjustment you need to make for your website and online marketing strategies. A relationship with Custom A Design means you don't have to start from scratch every time an adjustment or add-on is needed.

Working within your budget

While we would all love to take the digital age by storm, the reality is we are constrained by time and money. That is why we are here to customize your web designs and develop your project for a price that will fit your budget.

Our systems are always open-ended; future add-ons can be made by other companies. We assure you that we are a safe investment due to our flexibility and excellent support services.

Packages that suit any business

Small Business

A small business essentially delivers emphasis on business distinction and a sharp and snappy website definitely put the business into a higher ground.

A powerful website provides direct value, dependence and satisfaction to your own business.

Retail and Consumer

Capture the spark of your prospect clients. Lure attention, stir emotion, and lead users to relish the experience of patronizing your brand online.

Retail websites seek such factors to help clients stay and bypass its competitors.

Business to Business

It is vital that business websites address the needs of the consumer. After all, business clients have varied ways and habits of purchasing.

Corporate Business

A corporate website serves many needs and performs multiple functions. It is your storefront and the face of your company in today's online world.

E-commerce

Electronic commerce or E-commerce is all about giving an excellent shopping experience to online customers that they won't find anywhere else.

Enterprise Web Applications

Almost everything from media, shopping, education, businesses, and even offices are moving online. We have to keep up with this fast and ever growing change if we want to stay on top of our competition.
